

The Network, Transistors Gone Wild

This is age of make-believe
Or a reality series
Television, murder city
Dreaming of tomorrow
Am I alive or fantasy?
Give me murder give me loss
Turn the cities into dust man
My brain is melting
And it smells like a volcano
Japanimation surgery
Drinking nuclear energy
Reservoir spewing toxic
Shout!
There's no tomorrow
Drinking nuclear energy
Give me murder give me loss
Turn the cities into dust man
My brain is melting
And it smells like a volcano
Give me murder give me loss
Transistors
Transistors gone wild
