

# The Nextmen, Something Got You

Was a time  
when we began to write  
a world within our heads  
taking time  
to leave it all behind  
and live on what we said  
wasnt blind  
its just i can see it now  
but it was just that who  
i knew wasn't the you  
that makes me blue  
but its true  
that its not you  
yaaaah  
something's got you  
and it't not me  
it's taking over you  
and you cant see  
something's got you  
so i cant find  
what i know of  
what i know of  
what i know of  
Youuuuuuu

was a time  
you saw your second chance  
the future in my hands  
for a while  
it was you and all you ask  
it became our only plans  
wasnt blind  
its just i can see it now  
but it was just that who  
i knew wasn't the you  
that makes me blue  
but its true  
that its not you  
yaaaah  
something's got you  
and it't not me  
it's taking over you  
and you cant see  
something's got you  
so i cant find  
what i know of  
what i know of  
what i know of  
Youuuuuuu

your taking flight when  
you should be still again  
your in my sight then  
your moving off again  
i try not to lose what's  
not yours to take away  
but then ou're back again

ooooh  
omething's got you  
and it't not me  
it's taking over you  
and you cant see  
something's got you

so i cant find  
what i know of  
what i know of  
what i know of  
Youuuuuuu

something's got you  
and it't not me  
it's taking over you  
and you cant see  
something's got you  
so i cant find  
(what i know of)  
(what i know of)  
(what i know of)
