

# The Noisettes, Horses (Charlie Francis Version)

I see horses now, take me with you  
As the night crawls near, move closer dear  
Is this dream or fake got me through it  
Your my ocean of wishes  
Ocean of wishes no, no, no  
I see horses take me with you  
As this night draws nearer  
Is this dream or fake baby  
Got me through this  
Cause your my ocean of wishes, ocean of wishes  
More tender slow measure because this is love  
Haven't you heard? see i sings like the birds, these days I love the way from the night just don't cha  
Haven't you heard? see i sings like the birds, these days I love the way from the night just don't cha  
She's saying I'll fix you  
Watch her dance like a spin top  
Firefly's in the night sky  
Human like eyes  
I dread the morning light  
It brings me back to life  
This life view should change her if its love  
Haven't you heard? see i sings like the birds, these days i love the way from the night just don't cha  
Haven't you heard? see i sings like the birds, these days i love the way from the night just don't cha  
Can you hear me?(x3)  
Jealous lovers  
I- fall away, I- fall away  
Haven't you heard? see i sings like the birds, these days i love the way from the night just don't cha  
Haven't you heard? see i sings like the birds, these days i love the way from the night just don't cha  
Haven't you heard!
