

# The Notwist, Pilot

He's living next the rails.  
He can tell you things of different cars and trains.  
Now he's trying the whole day  
to SWITCH off time by causing train-delay.

Could be enough  
if only he's the pilot  
once a day.

Could be enough  
if only he's the pilot  
once a day.

Not a word to compensate.  
Not a sentence to describe this  
desperate state. Not a picture to  
compare. We step into a room of  
opaque air.

Could be enough  
if only we are pilots  
once a day.
