

The Notwist, Pilot

He's living next the rails.
He can tell you things of different cars and trains.
Now he's trying the whole day
to SWITCH off time by causing train-delay.

Could be enough
if only he's the pilot
once a day.

Could be enough
if only he's the pilot
once a day.

Not a word to compensate.
Not a sentence to describe this
desperate state. Not a picture to
compare. We step into a room of
opaque air.

Could be enough
if only we are pilots
once a day.
