

# The Only Ones, Trouble In The World

Everybody thinks that they're the one  
Everybody thinks they're stronger than everybody else  
They see what happens to their friends  
They don't believe that's how they're gonna end

If you do happen to be stronger  
It only means you gonna take longer to go under

That's the trouble in this world  
The trouble in this world  
The trouble is...

At first you got the upper hand  
When people warn you, you just don't understand  
You say it's an old wives' tale  
And everybody's gonna die anyway

This marriage was doomed from the start  
She's don't wanna have money she just rips out your heart  
When you part, when you escape from  
Her prison

(music break)

Your saviour wrote you a message  
You're superstitious, you know you shouldn't break the chain  
Don't be scared to have children  
Anyone would have thought it was pre-ordained

If you do happen to be stronger  
It only means you gonna take longer to go under

That's the trouble in this world  
The trouble in this world  
Oh trouble, in this world  
Trouble, trouble  
Trouble in the world  
That's the trouble in this world
