

The Partridge Family, Every Song Is You

INTRO:

Magazines and afternoon dreams get me through the day
and 'till the night can smile for the people as I sing and I play
I left home it seems like a century ago
I never thought I could miss anybody so, but now I know

CHORUS: ☐☐ Everywhere I go, everything I do
every song is you
Searched my mind just to find
something I always knew
Everywhere I go, everything I do
every song is you
Searched my mind just to find
something I always knew
Every song is you

Singing man with a six-piece song band, answer to my dreams
and everytime I sing without you, how lonely it seems
I love you now like I never loved you before
Each day that goes by, I find that I want you so, I need you more

CHORUS: ☐☐ Everywhere I go, everything I do
every song is you
Searched my mind just to find
something I always knew
Everywhere I go, everything I do
every song is you
Searched my mind just to find
something I always knew
Every song is you

CHORUS: ☐☐ Everywhere I go, everything I do
every song is you
Searched my mind just to find
something I always knew
Everywhere I go, everything I do
every song is you
Searched my mind just to find
something I always knew
Everywhere I go....
