

# The Partridge Family, Last Night

INTRO:

Last night I couldn't fall asleep because I wanted to keep on thinkin' of you  
Last night I was flyin' high, I was happy, I was happy

Last night you told me something that I won't forget if I should live forever  
Last night you said you loved me and it gave me fever and I thought it over

Ba- by, my ba-a-a-a-by...

CHORUS:

When you are there I'm aware that I must be dreaming  
When you are near I can hear my body screaming

Never let me go, honey, never let me go, baby  
Never let me go, never ever ever let me go

Last night I couldn't fall asleep because I wanted to keep on thinkin' of you  
Last night I was flyin' high, I was happy, I was happy

Last night you told me something that I won't forget if I should live forever  
Last night you said you loved me and it gave me fever and I thought it over

Ba- by, my ba-a-a-a-by...

CHORUS:

When you are there I'm aware that I must be dreaming  
When you are near I can hear my body screaming

Never let me go, honey, never let me go, baby  
Never let me go, never ever ever let me go

When you are there I'm aware that I must be dreaming  
When you are near I can hear my body screaming  
When you are there I'm aware that I must be dreaming  
When you are near I can hear my body screaming

REPEAT AND FADE
