

The Polyphonic Spree, Light And Day

Light
And day
Is more than you'll say
'Cause all
My feelings are more
Than I can let by
Or not
It's more than you've got
Just follow the day
Follow the day and reach for the sun!

Follow the day
Follow the day and reach for the sun!

You don't see me flyin' to the red
One more you're done
Just follow the seasons and find the time
Reach for the bright side
You don't see me flyin' to the red
One more you're nuts
Just follow the day
Follow the day and reach for the sun!

Follow the day
Follow the day and reach for the sun!

You don't see me flyin' to the red
One more you're done
Just follow the seasons and find the time
Reach for the bright side
You don't see me flyin' to the red
One more you're nuts
Just follow the day
Follow the day and reach for the sun!

Follow the day
Follow the day and reach for the sun!

Follow the day
Follow the day and reach for the sun!
