

The Polyphonic Spree, Section 27 (Oh I Feel Fine)

The world was made in just one night
electric moment we took a ride
And all the trees were swinging high and low
I never wanted to let go

No, I feel, fine
No one I feel right
today

Never thought you'd get a way

The world was made with you tonight
And in the summer
And in the summer
The winds made us slide
This floating feeling keeps us high and low
I never want you to let go
Don't go

No, I feel, fine
No one I feel right
this way

Never thought you'd get away

You'll come around
You'll come around
You'll come around
And all you want is on it's way

Sitting here
I wonder
Were we too far gone tonight
Sitting here
I wonder
Were we too far gone tonight

I never want you to get away
I never want you to get away
I never want you to get away
