

# The Polyphonic Spree, Section 27 (Oh I Feel Fine)

The world was made in just one night  
electric moment we took a ride  
And all the trees were swinging high and low  
I never wanted to let go

No, I feel, fine  
No one I feel right  
today

Never thought you'd get a way

The world was made with you tonight  
And in the summer  
And in the summer  
The winds made us slide  
This floating feeling keeps us high and low  
I never want you to let go  
Don't go

No, I feel, fine  
No one I feel right  
this way

Never thought you'd get away

You'll come around  
You'll come around  
You'll come around  
And all you want is on it's way

Sitting here  
I wonder  
Were we too far gone tonight  
Sitting here  
I wonder  
Were we too far gone tonight

I never want you to get away  
I never want you to get away  
I never want you to get away
