

# The Prodigy, Baby's Got A Temper

You can see me coming from a mile off  
Once again ignite the skyline  
She's gonna be printed on money  
Just like your royal family  
(This ain't no holiday)  
This time there can be no funeral  
(I'm vibing, can you feel me?)  
We love Rohypnol, she got Rohypnol  
We take Rohypnol  
Just forget it all  
We love Rohypnol, she got Rohypnol  
We take Rohypnol  
Just forget it all  
Just forget it all  
This baby's got a temper  
This baby's got a temper  
This baby's got a temper  
You'll never tame her  
You can see me do another parallel  
Better bow down, you're not worthy  
(Hey get off my planet, yeah)  
Last time I'll be your prisoner  
No name no number  
(Revolving, dissolving)  
Shooting through the trap door  
What I think don't matter anymore  
(I'm vibing can you feel me?)  
We love Rohypnol, she got Rohypnol  
We take Rohypnol  
Just forget it all  
We love Rohypnol, she got Rohypnol  
We take Rohypnol  
Just forget it all  
This baby's got a temper  
This baby's got a temper  
This baby's got a temper  
You'll never tame her  
This baby's got a temper  
You'll never tame her
