

# The Prodigy, Babys Got A Temper Main Mix

You can see me coming from a mile off  
Once again ignite the skyline

Shes gonna be printed on money  
Just like your royal family  
(This aint no holiday)

This time there can be no funeral  
Im vibing, can't you feel me?

We love rhohypnol,  
she got rhohypnol  
We take rhohypnol  
Just forget it all

We love rhohypnol,  
she got rhohypnol  
We take rhohypnol  
Just forget it all  
Just forget it all

This baby's got a temper  
This baby's got a temper  
This baby's got a temper  
You'll never tame her

You can see me do another parallel  
Better bow down your not worthy  
( Hey get off my planet, Yeah)

Last time I'll be your prisoner  
No name no number  
(revolving, dissolving)

Shooting through the trapdoor  
What I think don't matter anymore

We love rhohypnol,  
she got rhohypnol  
We take rhohypnol  
Just forget it all

We love rhohypnol,  
she got rhohypnol  
We take rhohypnol  
Just forget it all

This baby's got a temper  
This baby's got a temper  
This baby's got a temper  
You'll never tame her

This baby's got a temper  
You'll never tame her
