

The Queers, I Always Knew

Don't you know that it's going okay
I want everyone to see that
Everything's coming up roses
Whenever you're hanging with me
When we're goofing off, laughing at nothing at all
And hoping the day lasts a week
Nothing else matters, no nothing else matters to me

My hearts pounding so fast but what can I do
These days it's got a reason to beat
I'm not walking down life's lonely highways no more
I've finally got something that's sweet
When we're goofing off, laughing at nothing at all
And hoping the day lasts a week
Nothing else matters, no nothing else matters to me

Always looking for someone to kiss me goodnight
Always hoping for someone like you
That would always shine bright like the stars up above
As we fell in love

And I always knew you were the one for me (x4)

I don't need a princess with you in my life
I don't need a million bucks
I'm something to someone, I'm into life now
I'm just a punk rocker in love
