The Queers, Voodoo Doll

I know girls, and I know you And the the stupid games you play I'm not good enough for you Well this is what I say

You may not know it but hey it's true He don't love you but I sure do Don't you know I love you so

All the girls say they're above me And I know you really love me But you're just my voodoo doll Oh yeah, just my voodoo doll

Walking down the street, staring at my feet And I'm all alone Everybody laughs at me I'm in the twilight zone

You may not know it but hey it's true He don't love you but I sure do Don't you know I love you so

All the girls say they're above me And I know you really love me But you're just my voodoo doll Oh yeah, just my voodoo doll
