## The Ramones, She Belongs To Me

What makes you think she'll go with you What makes you think you're better than me You think you can read her mind Maybe you're just looking for a good time Maybe you can give her more Tell me what you're doing this for Stay away from her, 'cause it's making me angry

Don't tell me how to love my baby She belongs to me

You come around looking for kicks But I know all about your dirty tricks now You think you took away my dream Ain't gonna be easy 'cause I get real mean Get out of here, get out of my life You're gonna be sorry if we have to fight Stay away from her, 'cause it's making me angry

Don't tell me how to love my baby She belongs to me

Don't tell me how to love my baby She belongs to me She belongs to me She belongs to me
