

The Red Jumpsuit Apparatus, Believe

Aren't these some times?
It's gotten bad, and it's been
Pressin on my mind
Got me feelin sad
But I know you know
That we could do more
But we just don't
Don't worry world
I feel your pain, and its a shame
My shoulders are hurt
And stressed from the pain
And I know you know
That you could do more
But you
And I still believe
That there is more love than hate
There's more heart than ache
And we are stuck in this great big world together
With a little bit of help from up above
And a sprinkling of love
We can break these chains
We will end these days
And I know you know
That you could do more
But you
And I still believe
That there is more love than hate
There's more heart than ache
And we are stuck in this great big world together
And I still believe
That there is a lot at stake, there's no time to wait
We can change the world if we try
We're gonna change it forever
You should join us
You, let it be you
Who will join us?
You, let it be you
And I still believe
That there is more love than hate
There's more heart than ache
And we are stuck in this great big world together
And I still believe
That there is a lot at stake
And there's no time to wait
We can change the world if we try
We're gonna change it forever
And I still believe
That there is more love than hate
There's more heart than ache
And we are stuck in this great big world together
And I still believe
