

The Reindeer Section, Where I Fall

I thought it was
The only time
You could say to me that this feels right
Leave me out
Leave me out
Leave me out
Leave me out
I fear the worst
I've missed my chance
You've been and gone and took my heart
All my love
All my love
All my love
All my love
Not strong enough
I might just break
'Cos I wanted you, make no mistake
Where I fall
Where I fall
Where I fall
Where I fall
Please don't look at me
I'm in such a mess
I will beat your love out of my chest
I just want peace
I just want peace
I just want peace
I just want peace and quiet in my head
I can't find it in the bars or in my head
If you like I'll take your number from my phone
And lock the doors and turn the lights off in my home.
