

The Rifles, Robin Hood

One just one and then I'll go
Though it's on the cards that an argument it's imminent I know

But its not like I'll get carried home
It's just that I believe that she don't think I think of her when I'm on my own so...

Don't think that I don't need
Our nights with the TV
You're so dear to me but sometimes I like to lose control

Just one more I promise then I'll go
Now I don't want a scene and have you screaming down the phone

You should know the only one I know
That will make me laugh with little things they do is you

And only you alone so
Don think that I might be
Thinking that I might leave
You're so dear to me but sometimes I like to lose control

Maybe Saturday we'll go out and do something you like
Til that day arrives you should know you're mine

Don't think that I don't need
Our nights with the TV
You're so dear to me but sometimes I like it on my own
One thing I know, when I go my heart stays at home
