

# The Rolling Stones, Gangster's Maul

Baby . . .and I went down town  
Everybody said I was foolin' around  
Pick me out from all the rest  
And I love that...I gotta see it  
And I seen it all, shinny cars

Now baby...and it's all the same  
Everybody told me, that...you are the same  
I love that girl with all my heart  
And I love my girl  
I seen the world... shinny cars...again

I seen the world...shinny cars

And I wish to hell, I never fell in love at all...again  
I wish to hell, I never fell in love at all
