

# The Rolling Stones, Wake Up In The Morning

Wake up in the morning there's a snap  
around the place  
Wake up in the morning there's a crackle  
in your face  
Wake up in the morning there's a pop that  
realy says  
&quot;Rice Crispies for you and you and you&quot;

Pour on the milk and listen to the snap that  
says: &quot;It's nice&quot;  
Pour on the milk and listen to the crackle  
of that rice  
Get up in the morning to the pop that says:  
&quot;It's rice&quot;  
Hear them talking crisp. Rice Crispies!!
