

# THE ROOP, Let's Get Naked

There's no time to be shy and cold.  
Please let me see your naked soul.  
Oh oh!  
Take off your mask and shoes  
They've never been natural.

So would you come with me?  
There's so much to see.  
I wanna feel you close  
Like jam spread on a toast.

Don't ever say NO!  
I wanna hear YES!  
Just follow me.  
Yeah!

Let's get naked!  
Right in the middle of the night  
Into your arms I surrender  
Let's get naked!  
You start to tickle then you bite  
You little dirty pretender

You little dirty pretender  
You little dirty pretender

If you think you're too small, too big  
Or too fat - stop being so strict.  
Oh oh!  
Just let yourself go  
And you will find - you're beautiful.

So would you come with me?  
There's so much to see.  
I wanna feel you close  
Like jam spread on a toast.

Don't ever say NO!  
I wanna hear YES!  
Just follow me.  
Yeah!

Let's get naked!  
Right in the middle of the night  
Into your arms I surrender  
Let's get naked!  
You start to tickle then you bite  
You little dirty pretender

Play that sexy guitar!  
Nah nah nah nah nah nah nah nah nah.  
Nah nah nah nah nah nah nah nah nah.

Right in the middle of the night  
Into your arms I surrender  
You start to tickle then you bite  
You little dirty pretender

Let's get naked!  
Right in the middle of the night  
Into your arms I surrender  
Let's get naked!  
You start to tickle then you bite  
You little dirty pretender
