The Roots, Criminal (Feat. Truck North And Saige

(Chorus)

Monday they predict the storm
Tuesday they predict the bang
Wednesday they cover the crash
And I can see it's all about cash
And they got the nerve to hunt down my ass
And treat me like a criminal

(Black Thought) Look, it is what it is Because of what it was I did what I did 'Cause it does what it does I don't put nothin' above What I am, what I love My family, my blood My city and my hood Hater for the greater good I'm back from Hollywood And I ain't changed a lick Though, I know I probably should But, what I'm doin' is not a good look I never did it by the good book, as a lifetime crook All the petty crime took a toll on me I look around at my homies that's gettin' old on me But still somethin' gotta hold on me Maybe it's fate If it's comin', yo I'm willing to wait I'm not runnin', I done ran through the muck I done scrambled and such I done robbed an odd job and gambled enough Till I'm put up in handcuffs And pissin' in a cup If there's a God, I don't know if he listenin' or what

(Chorus)

(Truck North) Yeah, it is what it is And that's how it go Get treated like a criminal If crime is all you know Get greeted like a nigga Nigga's all you show A public enemy, to send a eye in the scope My city like a island where you can't find a boat Have you wishin' for a raft And prayin that hope flows Some real ethnic cleansin is goin down with no soap Who lookin' for a chair and some real strong rope Just to end it all here Screamin' "f**k the mayor" He see the faces at the bottom of the well clear They act like I'm somethin' to fear Trapped in urban warfare And pullin' triggers at a college career Can't ignore the call of the wild That's drawin' 'em near Try to make fast money last long some years Try to laugh it off Still couldn't lose the tears To the rules, I will not adhere Break the law, yeah... {echoes}

(Chorus)

(Saigon)

Who wanna challenge mine?

I'm sick of St. Valentine

I did the violent crimes

That's why I got this style of rhyme

Seek repentance to spittin them sentences

To senseless experience is the difference

You can't convince this

In a crime sense, niggas is infants

I'm like a senior citizen

Still livin' but gettin' benefits

Put emphasis on hittin' my nemesis in high percentages

Crooked ass cops is the reason for my belligerence

And it gets deeper than that

Remember nights I used to sleep wit a gat

With a package of crack under my sneaker strap

D's sneak attack and raid me

It took a week for that

Beat the rap, but you're sayin' "look, he think he the mack"

F**k ya'll!

Niggas who thinkin' they might try us

Watch us incite riots

Flip cars and light fires

We already been knocked, scrutinized

Plus, cops rush to brutalize us

America's polluted by lust

Who could I trust?

If I can't trust you, then I might touch you

If I ain't got love for you

Then f**k you!

(Chorus) x2
