

# The Roots, Don't Feel Right

[Chorus]

It don't feel right, it don't feel right  
It don't feel, it don't feel, I can't feel it no more  
It don't feel right, it don't feel right  
It don't feel, it don't feel, I don't feel it no more  
Things don't feel right over here  
Lately I ain't been seein' clear  
It don't feel right, it don't feel right  
It don't feel, it don't feel, I can't feel it no more  
It don't feel right, it don't feel right  
It don't feel, it don't feel, I can't feel it no more  
Seems to me nowadays things have changed  
I don't know if I feel the same

[Verse 1 - Black Thought]

Yo, in the land of the unseen hand, and hold trouble  
Theorize your game, it's difficult to roll a double  
The struggle ain't right up in your face, it's more subtle  
But it's still comin' across like the bridge and tunnel vision  
I try to school these bucks, but they don't wanna listen  
That's the reason the system makin' its paper from the prison  
And that's the reason we livin' where they don't wanna visit  
Where the dope slang and keep swayin' like Sonny Liston  
The money missin' and there's mouths to feed  
Yet the brain kickin', thinkin' of a thousand things  
Remember back in the days, when the kitchen had eggs  
And pancakes, thicken and greens and Kool Aid  
When the 'fridgerator naked then the cupboard is bare  
People got to strip naked, stick 'em up in the air  
Wasn't lies when they told you wasn't nothin' to fear  
Somethin' don't feel right out here, nahmsayin'? Check it out

[Chorus]

It don't feel right, it don't feel right  
It don't feel, it don't feel, I can't feel it no more  
It don't feel right, it don't feel right  
It don't feel, it don't feel, I don't feel it no more  
Things don't feel right over here  
Lately I ain't been seein' clear  
It don't feel right, it don't feel right  
It don't feel, it don't feel, I can't feel it no more  
It don't feel right, it don't feel right  
It don't feel, it don't feel, I can't feel it no more  
Seems to me nowadays things have changed  
I don't know if I feel the same

[Verse 2 - Black Thought]

Look, my eyes open 'cause I'm really a rocksmith  
And when inviting me thoughts, I'm really unboxin'  
My main adversary in this silly concoction  
Freeze your face like bosilium toxin  
If you ain't tryin' to get popped, then give me a option  
Helicopters choppin' from Philly to Compton  
The Jones is the richest since the Smiths & the Johnson's  
If you ain't sayin' nothin', you a system's accomplice  
It should play with your conscience, do away with the nonsense  
I'm overseeing anything within my circumference  
This ain't a press junket, I ain't seekin' responses  
I stand where the people got the heat in they pocket  
You mesmerized by the calm nonchalant-ness  
I spit a dart, rub on some John Hitchcock shit  
If you ain't speakin' your life, your rhyme's adopted  
If it don't feel right, then stop it, you nahmsayin'?

[Chorus]

It don't feel right, it don't feel right  
It don't feel, it don't feel, I can't feel it no more  
It don't feel right, it don't feel right  
It don't feel, it don't feel, I don't feel it no more  
Things don't feel right over here  
Lately I ain't been seein' clear  
It don't feel right, it don't feel right  
It don't feel, it don't feel, I can't feel it no more  
It don't feel right, it don't feel right  
It don't feel, it don't feel, I can't feel it no more  
Seems to me nowadays things have changed  
I don't know if I feel the same

[Verse 3 - Black Thought]

Yo, field you work in, weapon producin'  
Natural disaster got the planet in a panic  
We all gots to make that livin'  
Sex, drugs, murder, politics and religion  
Forms of hustlin', watch who you put all your trust in  
Worldwide, we coincide with who sufferin'  
Who never had shit and ain't got nothin'  
But most strugglin', and make you wanna run up in the ma' fuckin'  
With hots on for a piece of the cake back  
I can't work for it, I can certainly take that  
I'm fired up, thinkin' about the payback, except  
You fuck around and be a enemy of the state, black  
Ill, but that'd be too real for TV  
It's crazy when you too real to be free  
If you ain't got no paper then steal this CD  
Listen man, I'll let you know how it feel to be me, it don't feel

[Chorus]

It don't feel right, it don't feel right  
It don't feel, it don't feel, I can't feel it no more  
It don't feel right, it don't feel right  
It don't feel, it don't feel, I don't feel it no more  
Things don't feel right over here  
Lately I ain't been seein' clear  
It don't feel right, it don't feel right  
It don't feel, it don't feel, I can't feel it no more  
It don't feel right, it don't feel right  
It don't feel, it don't feel, I can't feel it no more  
Seems to me nowadays things have changed  
I don't know if I feel the same
