

The Roots, Lovely, Love My Family

Sometimes when I am sitting by myself
Those quiet moments when not with no one else
Im mesmerized by all the many good things in my life
I think about the time when I was younger
And the older that I get the more that I feel wiser
With the love of friends and family
Get stronger and it carries me on through

So I say lovely lovely lovely lovely lovely
lovely lovely lovely love, love my family
So I say lovely lovely lovely lovely lovely
lovely lovely lovely love, love my family
So I say lovely lovely lovely lovely lovely
lovely lovely lovely love, love my family

Sometimes when I am waiting for the bus
The sun shines bright and I feel peace like nowhere else
I know Im big and healthy, life keeps going, I keep moving, Im alright
I go to school and educate my mind, and the way the world is spinning
makes me want to turn around and start all over, and the reason we go back in time.

Oh baby love me
Oh spread the love around, yeah

So I say lovely lovely lovely lovely lovely
lovely lovely lovely love, love my family
So I say lovely lovely lovely lovely lovely
lovely lovely lovely love, love my family
So I say lovely lovely lovely lovely lovely
lovely lovely lovely love, love my family
