

# The Scenic, And We Collide

And you love like the best of us  
You saw this one day at a time  
And the years rolled by unnoticed  
As they trickled by your side  
This is the hardest part of growing old, you know  
We keep on changing with the days  
Lost in a moment, we almost collide  
Explosions of light in your eyes  
Let this shine forever  
I need you on  
And the love that we share  
It gives us hope and takes away our fears  
And the second that you let your dreams go by, you lose yourself  
This is the hardest part of growing old, you know  
We keep on changing with the days  
Go!  
Lost in the moment, we almost collide  
Explosions of light in your eyes  
Let this shine forever  
I need you on  
And all we are, you're losing  
And all we are, you're losing  
Lost in the moment, we almost collide  
Explosions of light in your eyes  
Lost in the moment, we almost collide  
Explosions of light in your eyes  
Let this shine forever  
I need you on
