

The Script, Live Like We're Dying

Sometimes we fall down and cant get back up
we're hiding behind skin thats to tough
how come we dont say I love you enough
till its to late, its not too late
Our hearts are hungry for a food that wont come
we could make a feast from these crumbs
and we're all staring down the barrel of a gun
so if your life flashed before you, what would you wish you would've done
Yeah...we gotta start
lookin at the hand of the time weve been given here
this all we got and we gotta start livin it
every second counts on a clock thats tickin'
gotta live like we're dying
Yeah... we only got
86 4 100 seconds in a day to
turn it all around or throw it all away
we gotta tell 'em that we lovem' while we got the chance to say
gotta live like we're dying
And if your plane fell out of the skies
who would you call with your last goodbyes
should be so careful who we live out our lives
so when we long for absolution
there'll be no one on the line
Yeah...we gotta start
lookin at the hand of the time weve been given here
this all we got and we gotta start livin it
every second counts on a clock thats tickin'
gotta live like we're dying
Yeah... we only got
86 4 100 seconds in a day to
turn it all around or throw it all away
we gotta tell 'em that we lovem' while we got the chance to say
gotta live like we're dying
Yeah... we only got
86 4 100 seconds in a day to
turn it all around or throw it all away
we gotta tell 'em that we lovem' while we got the chance to say
gotta live -- like we're dying
We never know a good thing till its gone
you never see a crash until its head on
all these people right when we're dead wrong
you never know a good thing till its gone
Yeah...we gotta start
lookin at the hand of the time weve been given here
this all we got and we gotta start livin it
every second counts on a clock thats tickin'
gotta live like we're dying
Yeah... we only got
86 4 100 seconds in a day to
turn it all around or throw it all away
we gotta tell 'em that we lovem' while we got the chance to say
gotta live like we're dying
Like we're dying oh -- like we're dying x2
Yeah... we only got
86 4 100 seconds in a day to
turn it all around or throw it all away
we gotta tell 'em that we lovem' while we got the chance to say
gotta live like we're dying
