

The Shipyard, Downtown

We all hiding up in the hills
Overlooking the city walls
And downtown
We know that most things had gone wrong
Ever since we've left
Downtown
Can forever prove what doesn't work
Or build it from the starts?
Downtown

You don't have to go or be there
Let's yourself go
You don't have to live their lives
Destroy it all now

Downtown /4x

All this precious thoughts and freshest things
Cause it's people, and cause it's lives
Downtown
We fu**ikg Roman ____
Save them from themselves
To night

You don't have to go or be there
Let's yourself go
You don't have to live their lives
Destroy it all now
