The Shirelles, No Doubt About It

No doubt about it, I'm in love & Damp; can't do nothin' about it I can't concentrate on, on nothin' I do My mind's always, always on you & Damp; my achin' heart's laughin' back the blues My heart's laughin' back at the blues

No doubt about it, when you skip down the street & Down about it Oh when you find yourself singin' a summer song In the pourin' rain, & Down walk on 'Cause you walk along unaware of the rain Singin' a song like a lovebird in spring

Oh I love you, there's no doubt about my love Oh baby I love you

No doubt about it, I'm in love & Decause everything about it Because everything about love is true All that you love is you & Decause everything about love is true All that you love is you & Decause everything about it Because everything about love is true All that you love is you & Decause everything about love is true All that you love is you & Decause everything about love is true All that you love is you & Decause everything about love is true All that you love is you & Decause everything about love is true All that you love is you & Decause everything about love is you & Decause everything about love is true and it is true everything about love is true and it is true everything about love is true everything about
