

The Showdown, Hell Can't Stop Us Now

Hell can't stop me now
Yeah!

Heed this, your time is short
This is your warning, so wage your war
The great accuser
Hurl'd down to earth in shame
The ancient serpent
Empties his wrath into this plane
Council of war
Now spawns beasts from the earth and sea
The final conflict
Man's ruin none leaves unscathed

Fling wide the gates of hell
And drape the sun in blackened wings
Breathe deep the sulfur
Now grip your sword your time is short

Your time is short
So wage your war
Cause hell can't stop me now!
