

The Silvertones, Boogie Woogie Dynamo

She's got that boogie woogie walk and talk
Man that chick can really rock
her pony tail is a bopp'n around
her feet are a patten leather blur on the ground
ask her how she does and she say's "I dunno?"
I guess she's just a boogie woogie dynamo.

At ten o clock she comes alive
and gets them kids to jump'n'jive
makes that place so steam'n hot
when she shows off what she's got
she keeps 'em jump'n high and swing'n low
she's my little boogie woogie dynamo.

She's got 14, 13, 12, 11, 10 men on the floor
blinks her eyes, sees 'em drop like flies
but they keep come'n 'round for more
she keeps 'em dance'n fast when the music's slow
she's my little bu-bu-bu-bu-bu-bu
boogie woogie dynamo, b-boogie woogie dynamo, b-boogie woogie dynamo
bbbbbbbbbb-ba-ba-boogie
she keeps 'em bopp'n high and swing'n low
she's my little boogie woogie dynamo.

it's like a '69 ford suspension welded to her frame
and it keeps that boogie so tight and smooth
but never quite the same
she keeps 'em dance'n fast when the music's slow,
bop'n high and swing'n low,
how she does it I don't know
she's my little boogie woogie dynamo.
