

# The Simpsons, Union Strike Folk Song

come gather round children  
it's high time ye learned  
bout a hero named homer  
and a devil named burns

we'll march til we drop  
the girls and the fellas  
we'll fight til the death  
or else fold like umbrellas

we'll march day and night  
by the big cooling tower  
they have the plant  
but we have the power

(lenny says "now do classical gas")
