

# The Smithereens, Too Much Passion

When I kiss your lips I just don't want to behave  
My passion runs deeper and, girl, I'm not afraid  
To bare my heart and soul and let it tumble all out  
But if you say the word you'll have me talkin' about

When I kiss your lips, I just don't know where I stand  
My passion runs deeper and things get out of hand  
I'll bare my heart and soul and let it tumble all out  
But if you say the word you'll have me talkin' about

(Too much passion) girl, whenever we touch  
(Too much passion) girl, there's never too much  
(Too much passion) girl, it's never enough  
Too much passion is not enough  
Too much passion is not enough

Whenever you touch me I feel a fire inside  
My feelings that I have for you I just can't hide  
I'll bare my heart and soul and let it tumble all out  
But if you say the word you'll have me talkin' about

(Too much passion) girl, whenever we touch  
(Too much passion) girl, there's never too much, oh yeah  
(Too much passion) girl, it's never enough  
Too much passion is not enough  
Too much passion is not enough

When I kiss your lips I just don't want to behave  
My passion runs deeper and, girl, I'm not afraid  
To bare my heart and soul and let it all tumble out  
But if you say the word you'll have me talkin' about

(Too much passion) girl, whenever we touch  
(Too much passion) girl, there's never too much  
(Too much passion) girl, it's never enough  
Too much passion is not enough  
Too much passion is not enough  
Too much passion is not enough  
Too much passion is not enough  
Too much passion is not enough  
Too much passion is not enough  
Too much passion is not enough  
Too much passion is not enough  
Too much passion is not enough  
Too much passion is not enough  
Too much passion...
