

The Starting Line, Inspired by the \$

Closed window pane
I stare out all day
This room and the walls
We wait for the call
And slow like decay
This progress we've made
Could you...

Get to the point, get it across
To the boys at the top of the ladder I'm climbing up
I, I have my doubts

This is a call from my cage
through the bars
Inspired by the dollar sign that's dangling outside
Someone...

Get to the point, get it across
To the boys at the top of the ladder
I'm climbing up
I, I have my doubts
my doubts
my doubts
my doubts!

Go on and get it right
Get it right
okay
Just stay, just stay the same way
Do it like you did it before
oh yeah
remain, remain the same way

Lord help me now

Get to the point, get it across
To the boys at the top of the ladder I'm climbing up
I, I have my doubts

Get to the point, get it across
To the boys at the top of the ladder I'm climbing up
I, I have my doubts
