

The Stills, Ready For It

I'll see you in a second
a dirty little minute
that was an hour ago
oh don't censor me
so bitterly
there's no change
the sun goes down

i'm ready for it
i'm ready for it

the days seem to past
clouds move too fast
about an hour ago
we hit a tree
we bruised your knee
keep on saying you love me

im ready for it
im ready for it

loving you's a black hole

i'm ready for it
