

# The Sugarcubes, Hetero Scum

Bjrk  
My blood flows in me  
My red juice in my veins  
My blood travels fast  
My blood rushes through me  
When I need you  
My blood flows faster  
My veins turn into molten mud

I'm turning in, turning in to  
Turning in to the ??????????

I was made long ago  
My blood makes me remember  
I was made out of mud  
My red juice makes me remember  
When I need you  
My blood goes faster  
My veins turn into molten mud

Einar  
Half of me  
I'm punctured  
I'm leaking  
The air is out  
Blasted into space like  
Burst balloons  
I'm punctured  
I'm leaking  
Half of me  
There's a hole on you too  
Into you  
Half of me  
It's the beginning half of me

Bjrk  
When I need you  
My blood goes faster  
My veins turn into molten mud

I'm turning in, turning in to  
Turning in to the ??????????

Einar  
Half of me, half of me  
Half of me,  
I'm a jellyfish!  
Burst balloon!  
Half of me, half of me  
Into space, into space  
Burst balloon!  
Half of me,  
No jellyfish, no jellyfish!
