

# The Sugarcubes, Motorcrash

Bjrk

Riding on my bicycle,  
I saw a motorcrash,  
A proper motorcrash,  
And lots of spectators,  
I rushed to the centre  
Saw the injured parents,  
Cuts on the children,  
An awful motorcrash.

Dangerous motorcrash,  
Terribly bloody motorcrash,  
Destructive motorcrash.  
Oh oh oh.

Took the mother,  
Sneaked with her secretly  
All the way to my home,  
And nursed her gently  
Put on her bandages,gave her  
Milk and biscuits,  
She sighed pleasantly after this  
Awful motorcrash.

It's a dangerous dangerous motorcrash,  
Terribly bloody motorcrash,  
Destructive motorcrash.  
Oh oh oh.

Einar

That girl on that bicycle showed great interest in all the motorcrashes  
in the neighbourhood, she looked quite innocent.

Then we disguised ourselves,  
Took a taxi to her home,  
When her husband opened the door  
She introduced herself, he said  
"Where have you been all this time?"

Einar

But believe you me  
I know what innocence looks like  
And it wasn't there,  
After she got that bicycle.
