

# The Supremes, Come On And See Me

(Harvey Fuqua/Johnny Bristol)

Come on and see me, baby  
Come on and see me, baby  
Come on and see me

If you need a lover  
Truer than any other  
Come on and see me  
If you need a heart  
That will never tear apart  
Come on and see me  
'Cause I've got a true love  
Just for you, love

And it can be yours eternally  
If you want it  
You better come and get it  
I say if you want it bad  
Come and get it

If you need a lover  
That'll stick right by you, brother  
Come on and see me  
I'll stand by your side  
I'll dry your weeping eyes  
Come on and see me  
'Cause I've got joy, love  
For some boy, love

And it can be yours eternally  
If you want it  
You better come and get it  
I say if you want it bad  
Come and get it

Baby, come on and see me now  
Sugar, come on and see me now  
Honey, come on and see me now  
Baby, come on

I've got joy, love  
For some boy, love  
And it can be yours eternally  
If you want it  
Come and get it  
Baby, come on and see me now  
If you want it bad come and get it  
Sugar, come on and see me now  
If you want it bad come and get it  
Honey, come on and see me now  
If you want it bad come and get it  
Darling, come on and see me now
