

# The Supremes, I Want A Guy

(Brian Holland/Berry Gordy, Jr./FreddieGorman)

I want a guy to love me  
One who will love me completely  
Not like the last  
Who's in the past  
Who broke my heart and made me cry

I wish that he would come and kiss me  
And tell me that he misses me  
I know someday  
He'll come my way  
And I'll never be lonely again

I don't need riches like diamond rings  
As long as he loves me  
That's everything  
As long as he holds me tight  
As long as he treats me right  
I'll never let him out of my sight

I want a guy with a love that's true  
One that I can tell my troubles to  
He'll be my guy  
And stay by my side  
I'd be so glad if I only had  
A guy, a guy  
Why can't I have a guy  
A guy
