

# The Supremes, Keep An Eye

(Nickolas Ashford/Valerie Simpson)

Keep an eye  
Keep an eye  
Keep an eye  
On your close friend

Keep an eye  
Keep an eye  
Keep an eye  
On your close friend

'Cause what you got that'll make you lose  
And then turn around and step in your shoes  
I say they'll turn around  
And step in your shoes

Like the day I stood there numb  
Watchin' my friend walk away  
With my love on her arm  
No, what she left me was  
The memory of the moment when she said  
"I'm sorry for what I have to do  
But you see I love him just as much as you"

Keep an eye  
Keep an eye  
On your close friend

Keep an eye  
Keep an eye  
You better watch out  
For your close friend

The devil's workshop is a busy place  
On top of evil there's an innocent face  
Oh, on top of evil he puts an innocent face  
She was just like a spider  
Only twice as smart

Kindness was the thread  
She used to weave our world apart  
It used to be three of us seen all over town  
Now there's only two  
Someone's missing guess who

Now I see how she schemed and finally  
Worked her way in between  
She planted seeds of mistrust here and there  
Causin' us to fight unaware  
Her comforting way when I would cry  
Shadowed the look of triumph in her eye  
Just like a snake on a limb of a tree  
A friend is an enemy you can see

'Cause what you got that'll make you lose  
And then turn around and step in your shoes  
They'll turn around  
And step in your shoes

So you better keep an eye on your close friend  
You better watch out for your close friend  
Don't trust nobody  
Don't trust nobody

Keep an eye on your close friend  
You better watch out for your close friend
