

The Sweet, Burn On The Flame

Every time I look into your eyes
you make feel alright
every time you whisper sweet surprise
you make feel alright
Alright

Love me like fire
burn on the flame
touch me take me higher
I'll go insane

Every little word I say to you
I make you feel alright
Every single moment I'm with you
I make you feel alright

Alright
Love me like fire
burn on the flame
Love me like fire
burn on the flame
touch me take me higher
I'll go insane
