

# The Sweet, Burn On The Flame

Every time I look into your eyes  
you make feel alright  
every time you whisper sweet surprise  
you make feel alright

Alright

Love me like fire  
burn on the flame  
touch me take me higher

I'll go insane

Every little word I say to you

I make you feel alright

Every single moment I'm with you

I make you feel alright

Alright

Love me like fire  
burn on the flame

Love me like fire

burn on the flame

touch me take me higher

I'll go insane
