

The Sweet, Eye Games

In the discos and the bars
They're playing eyes games
Venus is watching Mars
They're playing eye games
Come and try games
They're playing eye games
Electric attraction
In the night air
Eyes meet and break away
You can't show her you care
It's one of love's puzzles
The secrets in her eyes
Does it mean I'm on the right track
Is there a chance for romance
In the discos and the bars
They're playing eyes games
Venus is watching Mars
They're playing eye games
Come and try games
They're playing eye games
All round the citie
They stealing glances
She looks so pretty
I'll have to take my chances
The music's getting louder
You try to talk to her
You find it hard to concentrate
Wandering eyes must watch and wait
In the discos and the bars
They're playing eyes games
Venus is watching Mars
They're playing eye games
Come and try games
They're playing eye games
They're playing eye games (3x)
