

The Swellers, Immunity

I've seen human suffering
And I've seen human pain.
I've seen catastrophe
And I've seen people aiding in vain.
But I can't stop it all, so ill just sit down
And watch society burn to the ground.

Watching as the world decays,
Immunity's on full today.
It seems as if our problems
Are a channel change away.
I turn off the TV cause
I don't care anymore, I see it everyday.

I'd rather look away instead
Of watch things go away.
I'd rather die alone than
Die how all the heroes die.
Some people say that ignorance is bliss,
But I kind of like it like this.

Watching as the world decays,
Immunity's on full today.
It seems as if our problems
Are a channel change away.
I turn off the TV cause
I don't care anymore, I feel it everyday.
