

The Swift, Anthem

I am alive
I feel so free
Your love came along
When I thought hope was gone

And it rescued me
You lifted me up
When I was down
I whispered a prayer
And my God, You were there
You stuck around

And I wanna sing out loud
For all You've done
Finish the work in my heart
That has begun

Love come rescue me
Take me away from the world
And set my spirit free

Love come rescue me
Safe in Your arms, Oh, Lord
Is where I wanna be

Love come rescue me
You've opened my eyes
You've given me peace
You've given me so much joy
That sometimes I can't hardly speak

Now I am redeemed
And forever will be
You are my Lord
And I'm gonna be Yours, eternally
