The System, Don't Disturb This Groove

Pay attention are you listening You're my favorite girl Excuse me for the moment I'm in another world (On a mountain) by a fountain Flowers blooming everywhere With venus and cupid, the picture's very clear Hang the sign upon the door, say Don't disturb this groove Just a way to say that I'm so into you and the feelings so real So don't disturb this groove Erotic whispers for the listener Let the music fill the air Excuse me for a moment I'm at a loss for words By election sheer perfection And as if these eyes would care Your heart is in the right place So don't you go and change

Baby over and over the passion starts again You're my lollipops and everything And a little taste of sin Causing fire and desire In this mortal soul to live Till the angels fall from heaven And the day the earth stands still Hang a sign upon the door Say don't disturb this groove Just a way to say that I'm so into you and the feeling's so real So don't disturb this groove Just a way to tell you that I'm so into you Close your eyes and let the music put you in the groove Lock the door and turn the phone off, it's time for me and you Hang the sign upon the door, say don't disturb this groove
