How did you do it? "Well," she said, "smoke & mirrors... anything for love, anything for love." Low expectations breathing down my back. No grudge unworthy of holding. I know that won't be hard, I know that won't be hard. You can't take the city out of a city girl, well I don't know how we ended up here. Wide eyed & mp; new money with faded beauty queens. Well i don't know how we ended up here. Right before i meet ya, i had fire in my eyes. Down by the river, I found a little town. Down by the river, where all the lovers go, where all the lovers go.. Making teenage boys feel like a Christmas tree, ogling eyes, ogling eyes. I know you dread the day when it's any other way. You can't take the city out of a city girl, well I don't know how we ended up here. Wide eyed & mp; new money with faded beauty queens. Well i don't know how we ended up here. Right before i meet ya, i had fire in my eyes.
