

The Tiger Lillies, Lonely Schizophrenic

I'm a lonely schizophrenic I feel I've been abused
By everyone I've been with I feel that I've been used
Those voices these voices in my head they never stop
These voices in my head they never stop
I'm a lonely schizophrenic I'm friends with the Queen
All her lords and ladies and the Arsenal football team
Those voices those voices in my head they never stop
Those voices in my head they never stop
I'm a lonely schizophrenic I feel like suicide
I've taken all the happy pills and still I want to die
Those voices those voices in my head they never stop
These voices in my head they never stop
