

# The Ting Tings, Blacklight

I am but I'm not, contradiction  
I won't sweep all the mess off the floor  
you're so in and then you're out  
another door  
and it's g toe running theme  
it's the same old, dame old shit  
of familiar faces in dark rooms with empty spaces  
tonight you've got the black light on

I don't love you enough  
I just don't love you enough  
the black light showing you up  
everything is dirty and rough  
I just don't love you enough  
the black light showing you up  
everything is dirty and rough  
black light on

I could but I won't come to fix you  
and push you up against the wall  
take you in hot water and soap  
can wash it all away  
but I've see what you're like  
the dishonest type  
like you've rolled across the floor  
in bad places with shady faces  
tonight you got your black light on

I don't love you enough  
I just don't love you enough  
the black light showing you up  
everything is dirty and rough  
I just don't love you enough  
the black light showing you up  
everything is dirty and rough  
black light on
