

The Ting Tings, Keep Your Head

The room's green
It's got writing on the wall
It's got one chair
It's kinda small

Dirty shoes
Running past the door.
And then you go round
Beat yourself up,

Ten minutes to go,
And I wanna go home
Ten minutes to go,
Yeah, I've got to go home
Ten minutes to go,
And the air, it don't feel clear
Everybody disappear, you're
In it on your own

Fourteen,
Intimidated, and she's just fourteen
She's getting pulled from the opposite side,
Until it breaks down
Blame it on the wrong crowd
Stay, more make up, hair dye

Ten minutes to go,
You know she should have gone home
Ten minutes to go,
Yeah you should have gone home
Ten minutes to go,
And the air, it don't feel clear,
Everybody disappear, you're
In it on your own

You can't sleep,
You know it's over but you just can't sleep
You've gotta face it,
Gotta go outside
And do the day-walk
Living with the lights off,
Ain't nobody home

Ten minutes to go,
You know you wanna stay home
Ten minutes to go,
Yeah you wanna stay home
Ten minutes to go,
And the air, it don't feel clear,
Everybody disappear, you're
In it on your own

Keep your head
Keep your head
Just keep your head
Keep your
head

You wanna keep - ah
Keep it on the right side
If you know your gonna be coming off
It's gonna make you open your eyes
I said, now, open your eyes
You know it

You wanna keep - ah
Keep it on the low side
Yes you gonna see ten minutes to go
And your keeping it heads up
Keep it low, be right
Push it kinda low
So, open your eyes.
